Team Contract

Project Title: Smart Travel – Automated Vacation Planner
Course: CS5001
Term: Fall 2025

Team Members

Name	Email	Phone	Role
Sethu Kruthin Nagari	nagarisn@mail.uc.edu	513-879-5589	Project Manager
Sai Vakkalagadda	vakkalsh@mail.uc.edu	659-298-2913	Technical Lead

---

Meeting Expectations

- **Frequency:** Weekly
- **Tentative Day/Time:** Fridays at 4:00 PM
- **Duration:** 45–60 minutes
- **Additional Meetings:** Scheduled as needed prior to deadlines

---

Communication Guidelines

- Primary communication: Text
- Email used for formal advisor communication and updates
- Expected response time: within 24 hours on weekdays

Project Focus

Our project will build a **Travel Agent AI system** that plans and books entire vacations. Users will be able to provide constraints such as budget, travel dates, and interests (e.g., *"a relaxing beach vacation in Southeast Asia for under $2,000"*). The agent will research destinations, compare flight and hotel options, and present a complete, bookable itinerary.

The initial goal is to design a prototype that demonstrates the ability to collect user requirements, search available options, and generate optimized vacation plans.

Draft Roles of Team Members

- **Role1:** Project Manager
- **Role2:** Technical Lead

Signatures (Draft Agreement):

- Sethu Kruthin Nagari
- Sai Vakkalagadda
